

PRIVATE LABEL OFFER

Cling film for wrapping and storing products. **Safe for food contact** and free from PVC and plasticizers.

Our **cling film is distinguished by its optimal ratio of elasticity to stickiness**. The film easily unrolls and tear off, yet sticks very well to the dishes. There's a reason why our film is "easy peel, easy tear".

Our company manufactures the film "from scratch", not just rewind. The production process is 100% waste-free. We check the quality of the product at every manufacturing stage, from raw material to finished product.
